SUMMARY COMMENT

Are there particular efforts and/or issues that you would like to highlight for this reporting period related to your community's work to achieve the Reaching Home minimum requirements? In particular, please describe your community's efforts to set-up or improve the Coordinated Access governance structure, including processes to ensure that policies and protocols, as approved by the governance group(s), are being implemented across the system as intended to achieve desired results.

Between the 2019/20 and 2020/21 fiscal years, a number of activities took place to achieve the Reaching Home minimum requirements, particularly pertaining to the implementation of a Coordinated Access System. In collaboration with the partners, the Indigenous Community Entity (CE) played a key role in the design of a governance model that is based on the medicine wheel. The governance structure was approved by Coordinated Housing Access System (CHAT) members and is attached to this document for review. This model was also shared by the Indigenous CE at the Indigenous Reaching Home Forum in 2020. To meet the needs of our community, CHAT Committee chose to take a decentralized approach to Entry Points, with seven Entry Points throughout the community available by phone or in person. Two entry points are Indigenous specific and one Entry Point is available 24/7. The CHAT Policies and Procedures were drafted by an ad hoc committee comprised of CHAT members and went through four iterations before being approved by the larger group. The CHAT lead and data lead meet regularly to ensure that all policies and procedures are meeting the current needs. The steering committee meets quarterly to ensure that CHAT is running according to policies and procedures and changes are made when necessary. In particular, the collaborative efforts and the collective impact has enabled Thunder Bay to have an operational coordinated housing access system.
